

Faculty Accomplishments Paper Prototype Diagrams

Purpose of this document

Collected here are a set of diagrams aimed at documenting and specifying the interactions, information flow, and interfaces that the Faculty Accomplishments web site should support. These diagrams are based on extensive user interviewing, system analysis, card sorting, and user-directed prototyping.

The diagrams included in this document are those common to the field of information architecture, which studies the design, development, and use of information structures and information systems. These include workflow, sitepath, page flow, and wireframe diagrams. Each type of diagram is discussed in the "How to use this document" section below.

How to use this document

Workflow diagram

The workflow diagram is a picture that portrays the general movement of people, tasks, and information within a system. It includes a mixture of spatial and symbolic imagery and thus represents a mixture of spatial and conceptual movement. This diagram is useful for gaining a "big picture" view of the information space and guides the design of functionality that support the processes the system includes.

The symbols used in the workflow diagram loosely follow the key included in Visio's workflow diagramming template.

Sitepath diagram

The sitepath diagram shows the relationship between the various users of a web site and how they move through the information space on a general function-by-function basis. The diagram is built starting from each user and moving through each of the tasks the system supports. As the number of users and tasks grow, the paths through the site intersect at various points, creating a networked view of the web pages within the site. This diagram is very useful as a reference for orienting oneself within the system.

A useful guide to creating and using sitepath diagrams is included in on pages 248-253 of *Information Architecture: Blueprints for the Web* by Christina Wodtke, 2002, from New Riders (ISBN: 0-7357-1250-6).

Page flow diagrams

This set of diagrams views each major functional group of the web site and features a systematic treatment of the components, including how and where information is passed,

what components are reused, and what can be accessed where. These diagrams are used to group and map the individual pages that will eventually make up the web site.

The page flow diagramming system was created by Jesse James Garrett (who calls it the (Information Architecture Visual Vocabulary), and a detailed explanation of all symbols can be found at his web site: <http://www.jjg.net/ia/visvocab/>

Wireframe diagrams

This set of diagrams shows the general structure of each page of the web site, and includes very basic layout ideas. Wireframes are not meant to dictate any design, they are rather to display what information is included where and to give a general idea of the user interface. These diagrams may be used as a guide for designers and builders to ensure that all functions of the web site are included. They can also act as a paper prototype of the system for use in usability tests.

The wireframe diagram numbers correspond to the numbers on the page flow diagrams and may be used as a cross reference within the functional specification for the Faculty Accomplishments system. Where necessary, comments are included to explain the action of links, buttons, and dynamic content areas.

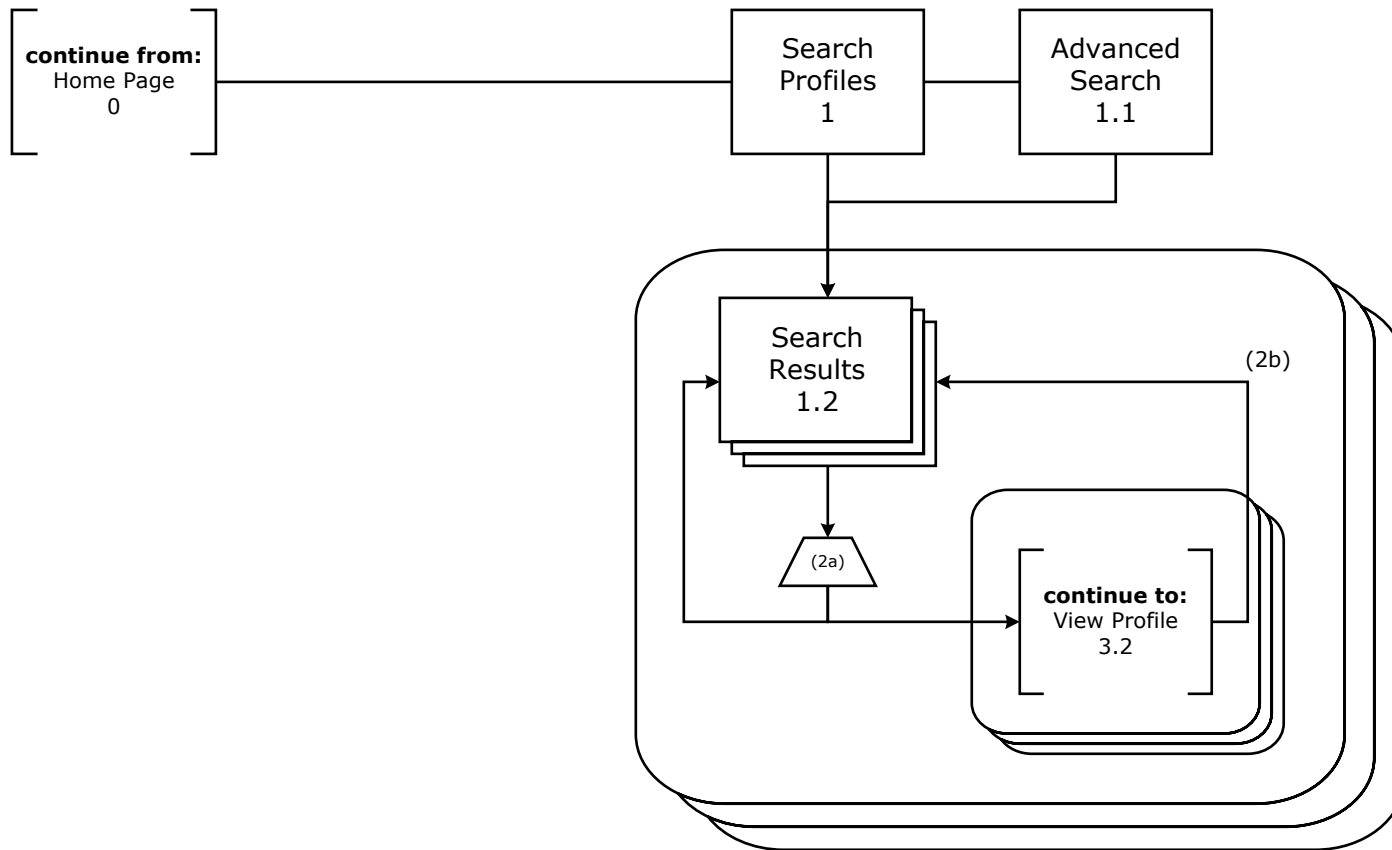

(1a) Page will open in popup window.

(1b) Link will be available if the user is a unit Administrator or is authorized by a unit Administrator to view Reports.

(1c) Link will be available if the user is a Faculty Member or is authorized by a Faculty Member to view their Profile.

(1d) Link will be available if the user is a Vocabulary Manager.

(2a) Certain fields in search results will be linked: faculty member's name, university unit(s), area(s) of expertise, and language usage group(s). If the faculty member's name is selected, user will be sent to View Profile. Otherwise, the search will be re-run based on the field & value selected.

(2b) From the View Profile screen, a link back to the Search Results will be available.

- (3a)** Items here will be listed hierarchically by Expertise. Expertise Areas will be generated from the Vocabulary.
- (3b)** Items here will be listed hierarchically by University Unit. Units will be determined by the University Administration.
- (3c)** Items here will be listed hierarchically by Language Usage Group (LUG). LUGs will be generated from the Vocabulary.
- (3d)** Items here will be listed alphabetically by Last Name or by first Name.

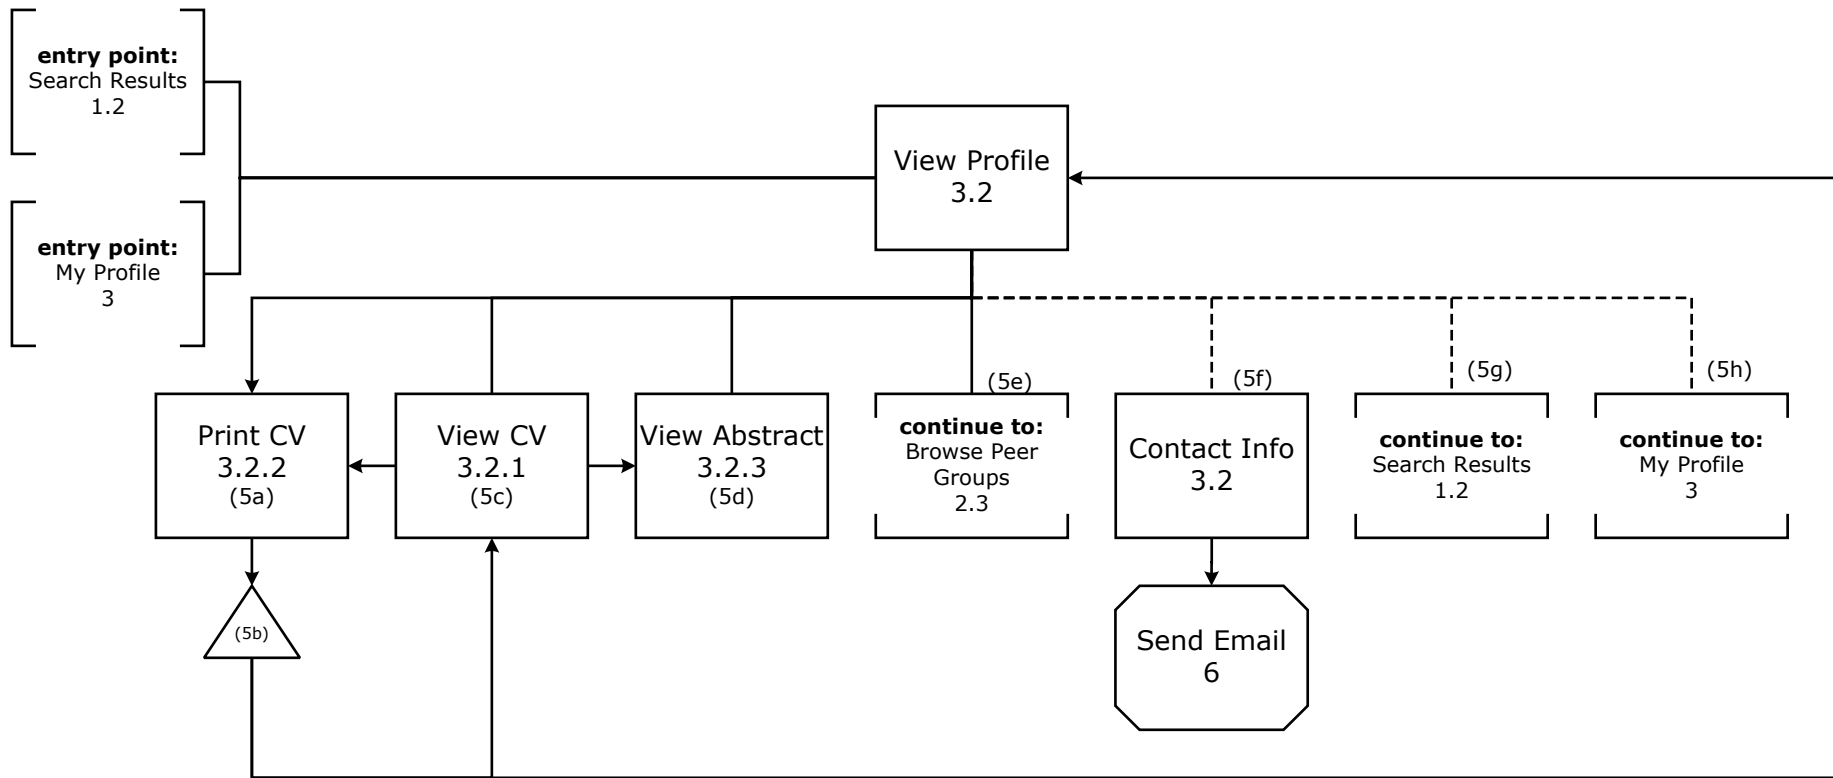

(4a) User selects a file to upload to the system from their hard drive.

(4b) Upload starts and user is sent to Edit Profile.

(4c) User selects a file type to export the CV as.

(4d) Download starts and user is sent to My Profile.

View Profile

(5a) CV will be displayed in printer-friendly format.

(5b) Link will send user back to page from which they came.

(5c) Profile will be displayed in standard CV format.

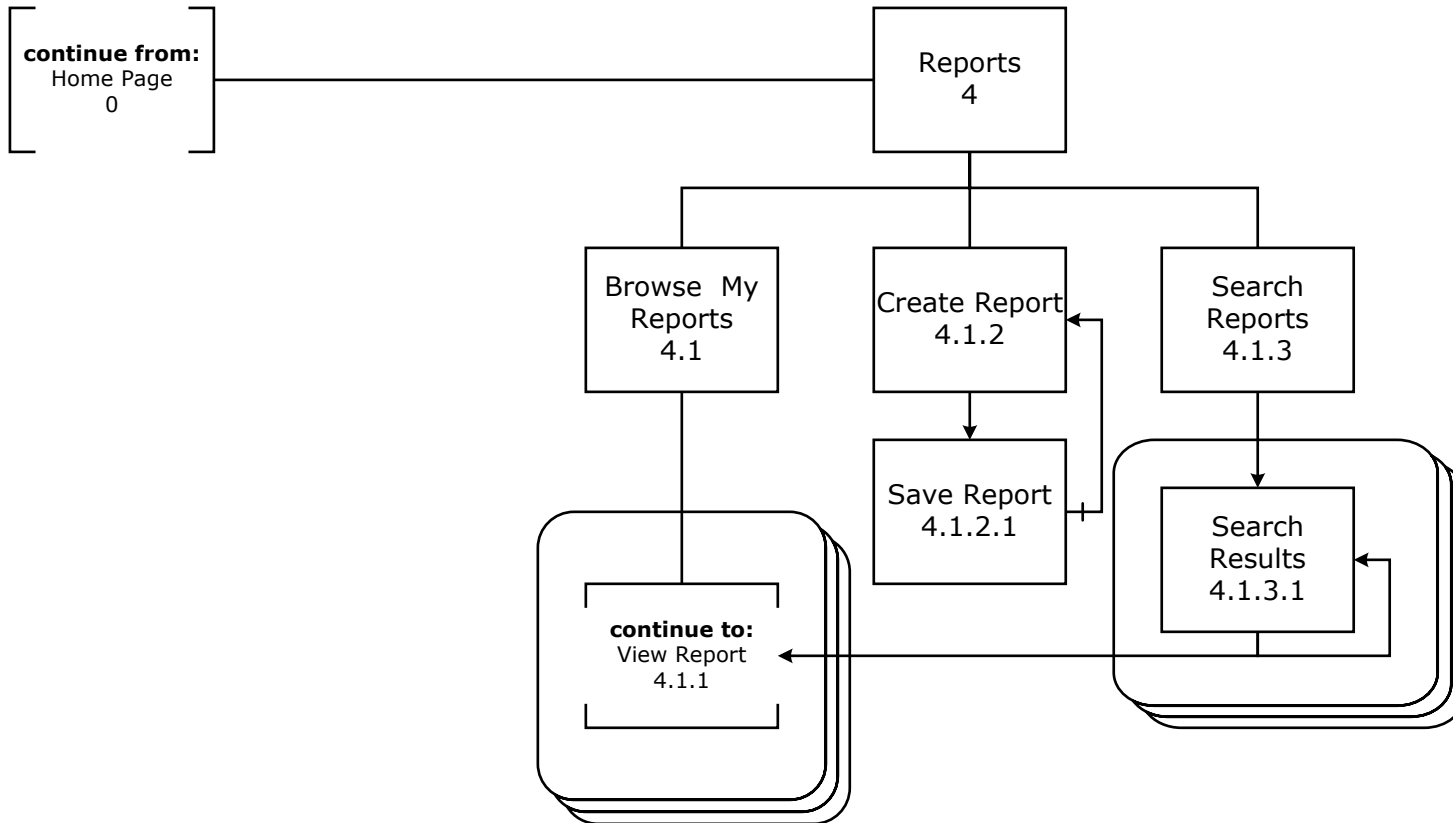

(5d) Abstract will be displayed in pop-up window.

(5e) Link label: "Find similar Faculty Members".

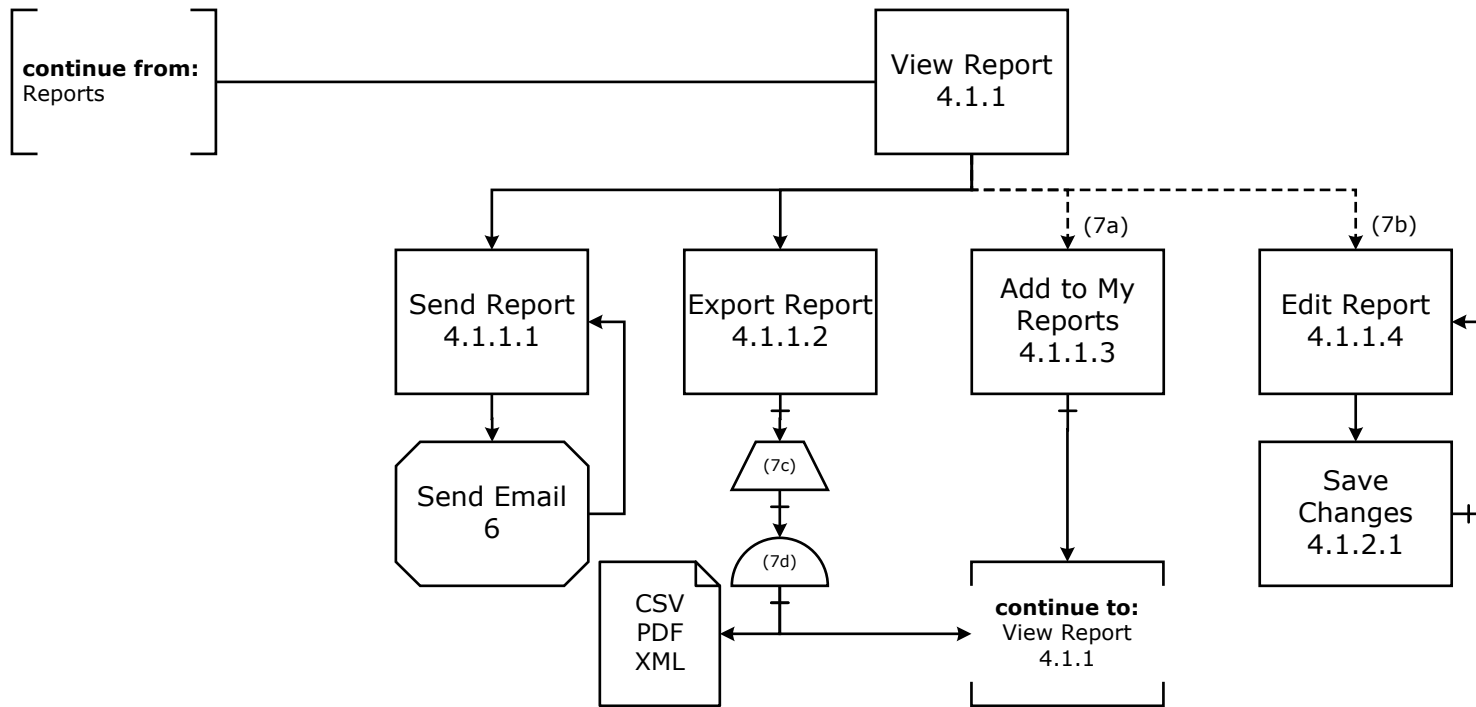

(5f) Link will be displayed if Faculty Member has chosen to allow their contact information to be viewable by others.

(5g) Link label: "Return to Search Results"; Link will be displayed if user came from Search Results

(5h) Link label: "Return to My Profile"; Link will be displayed if user came from My Profile

View Report

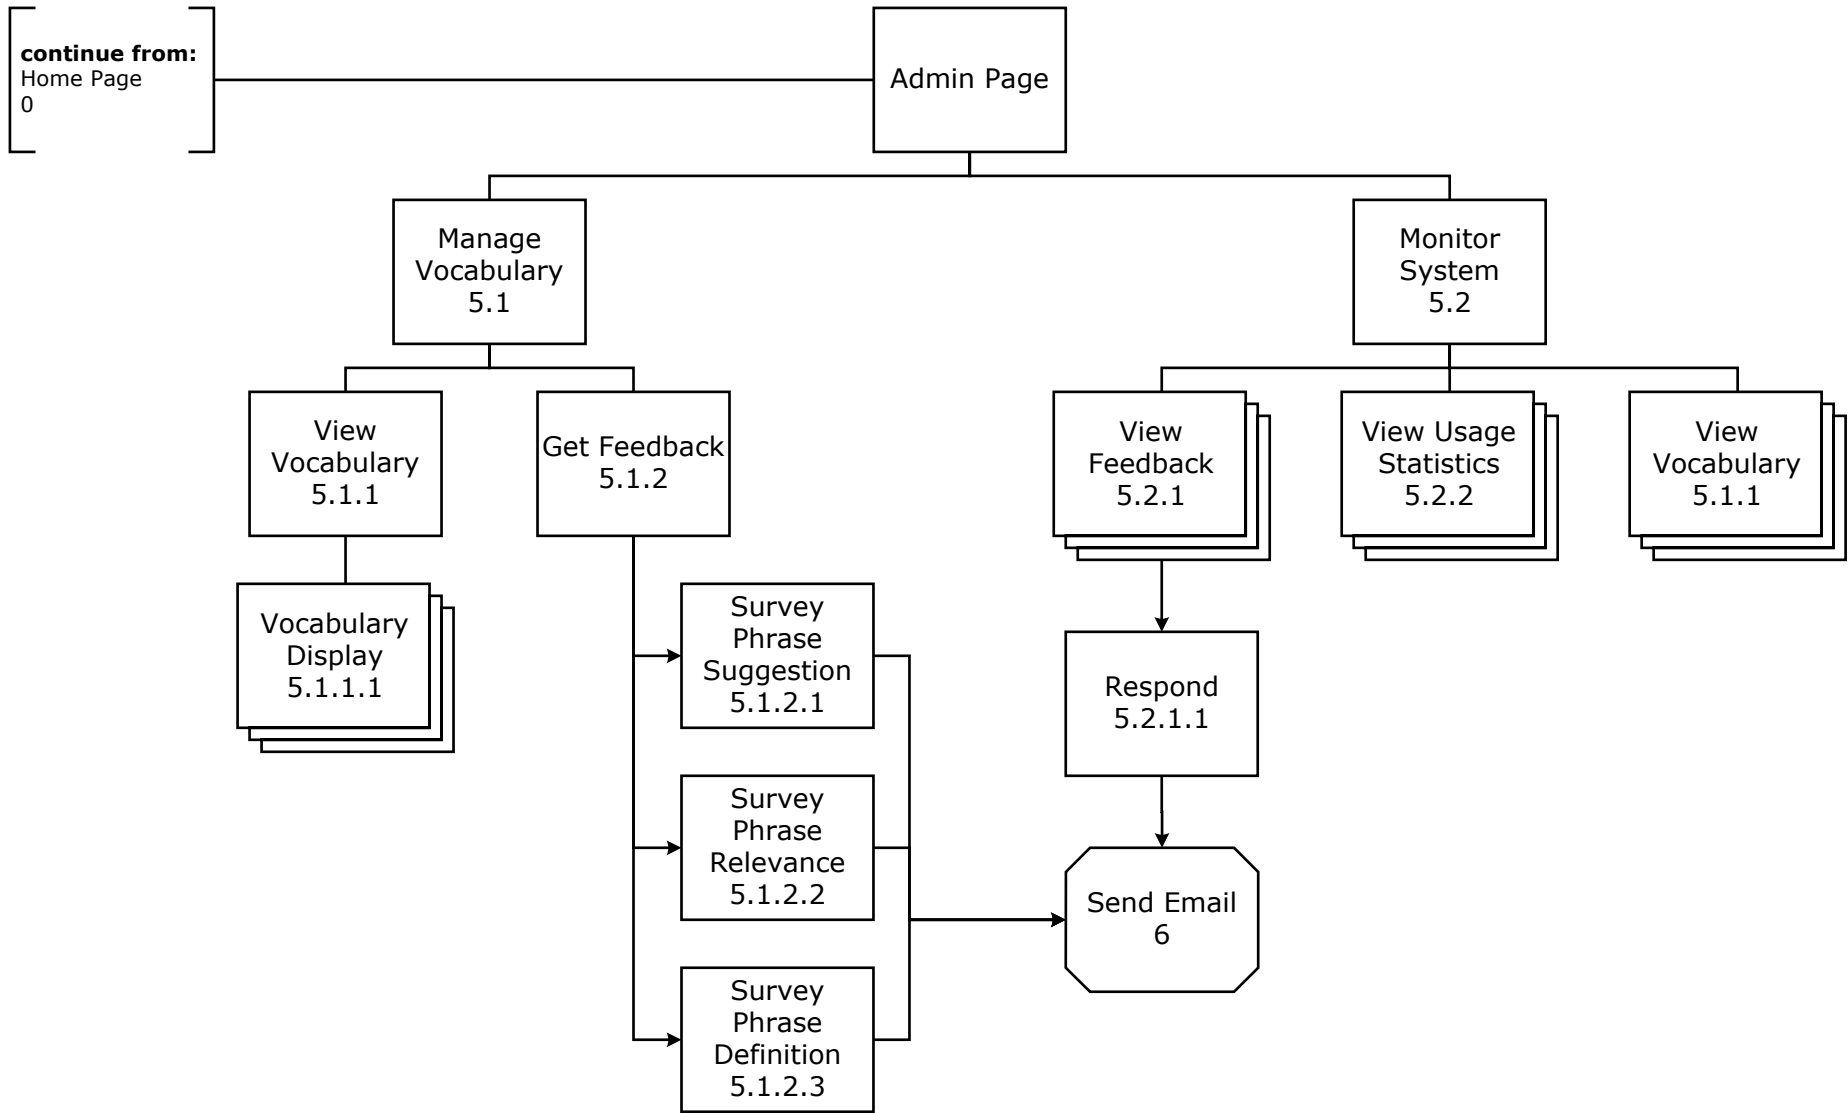

(7a) Link will display if Report is not already in user's My Reports.

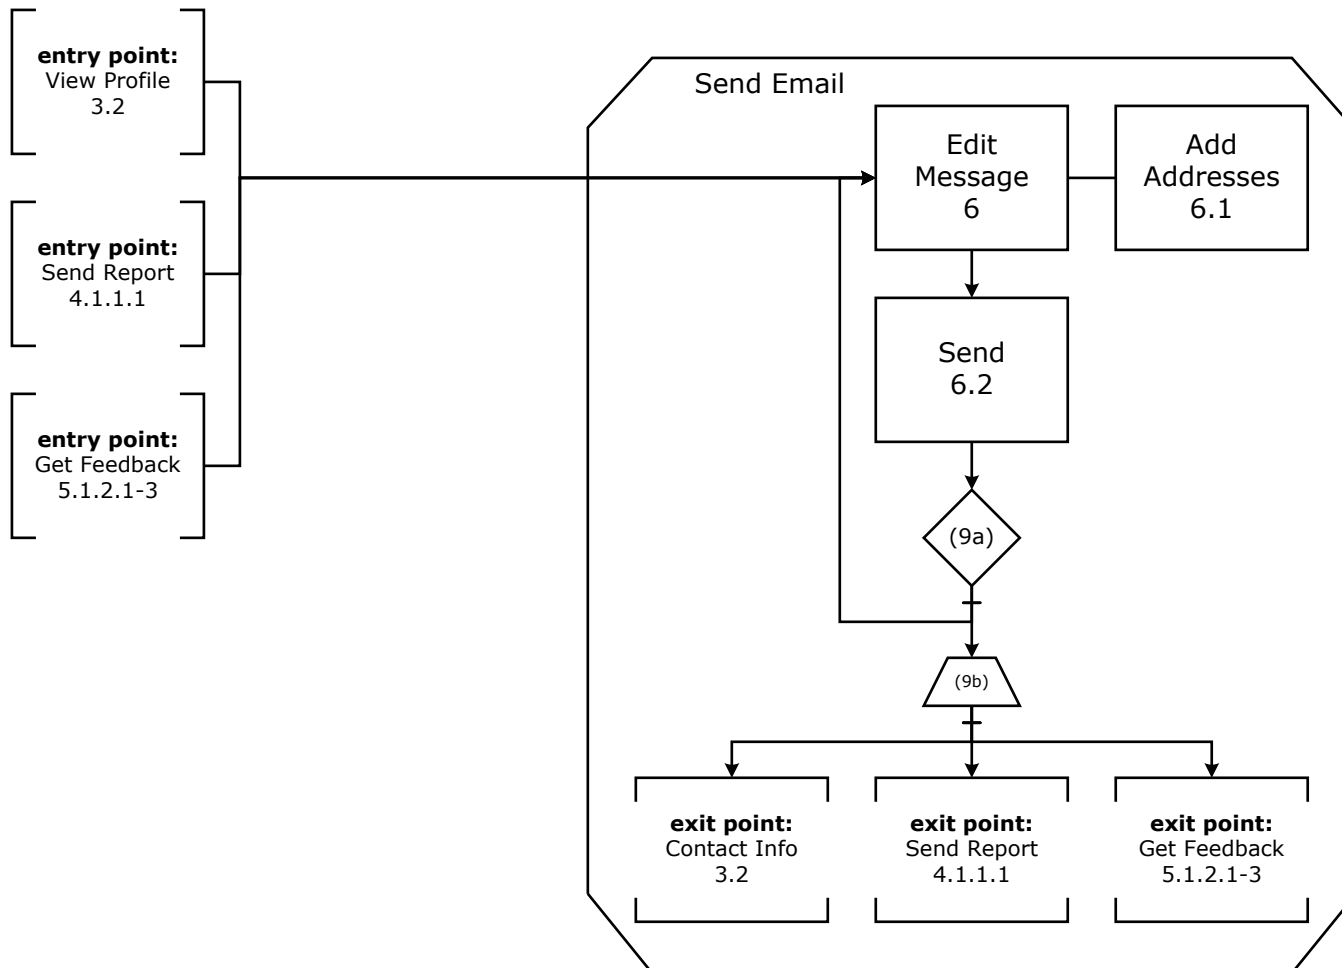

(7b) Link will display if Report is already in user's My Reports.

(7c) User selects file type to download.

(7d) File download starts and user is returned to View Report.

Send Email

(9a) User confirms or cancels sending message.

(9b) User is sent to whichever page they came from.

Welcome!

Edit Report Send Report Add to My Reports

Report type 1: Report Title

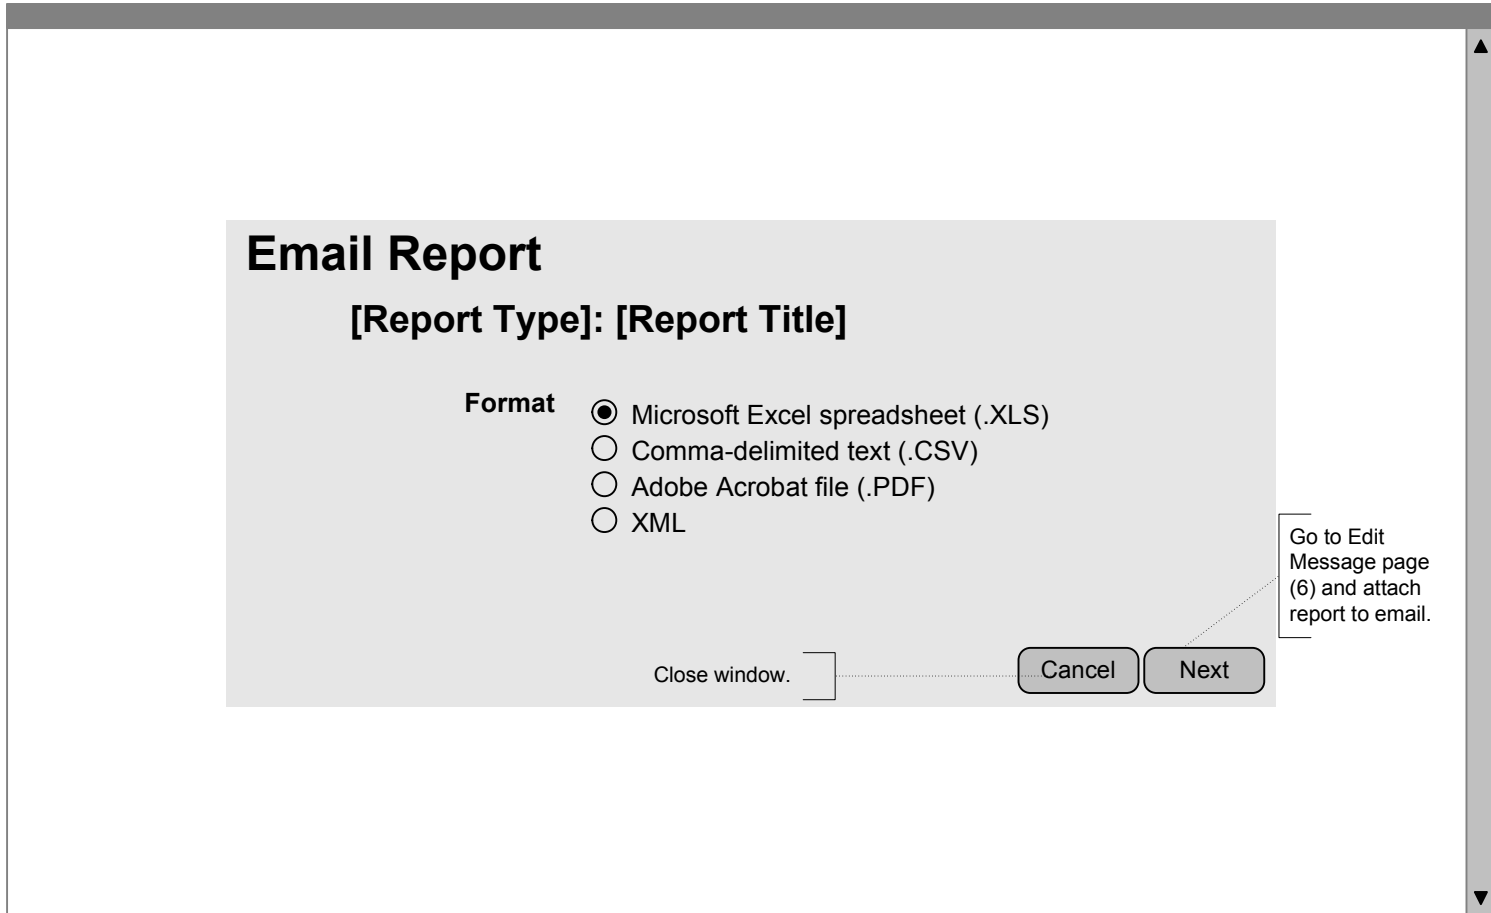

From Begin Date to End Date

Open Edit Report page (4.1.1.4) for this report in a new window.

Open Send Report page (4.1.1.1) for this report in a new window.

Open Add to My Reports page (4.1.1.3) for this report in a new window.

Display selected report here.

Email Report
[Report Type]: [Report Title]

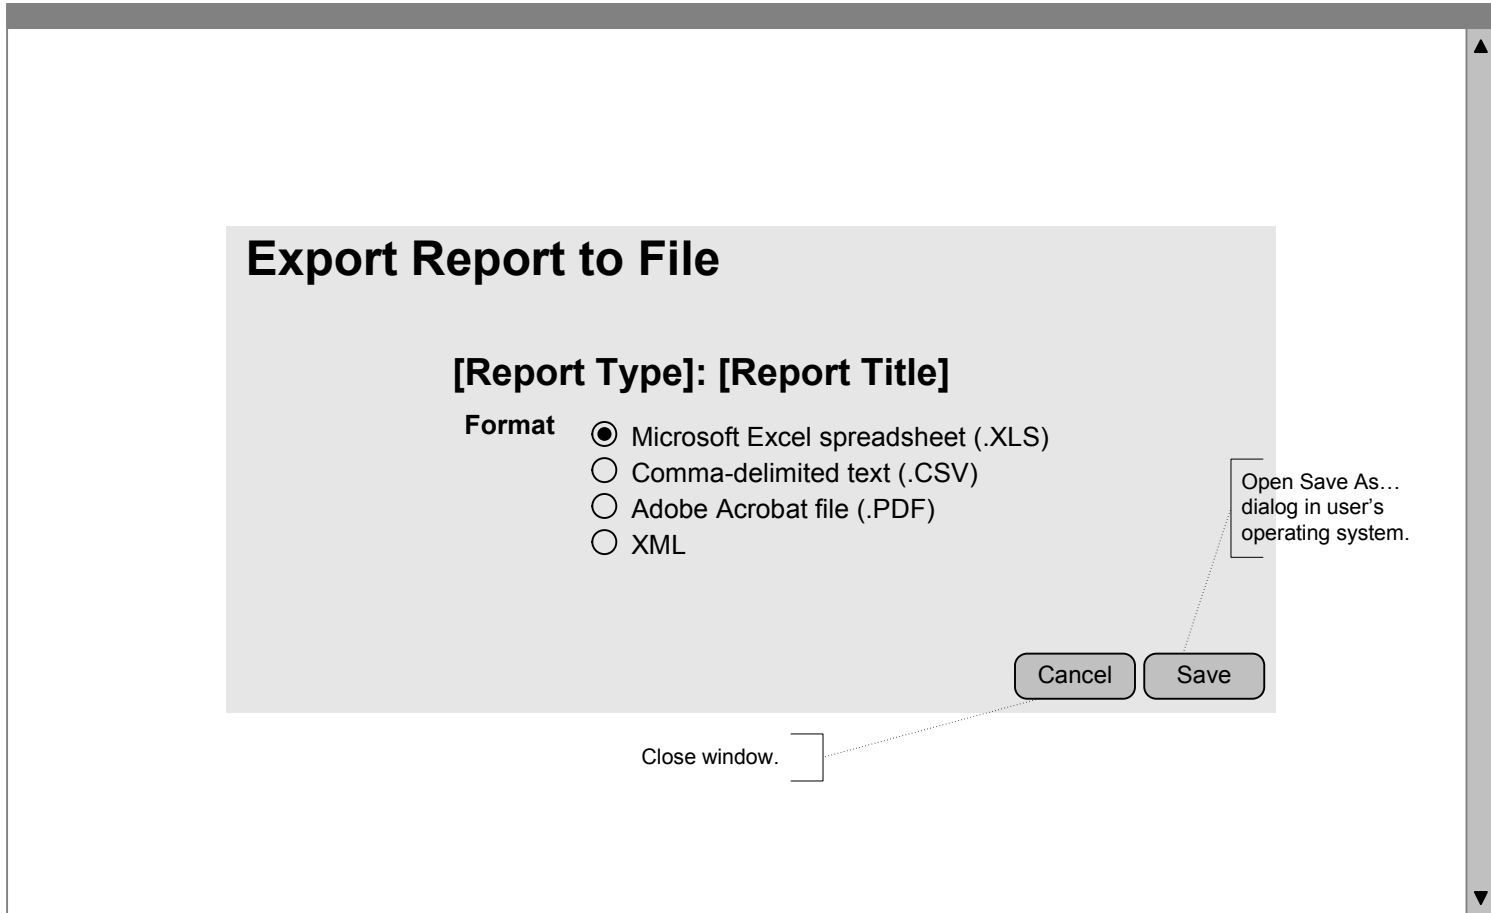

Format

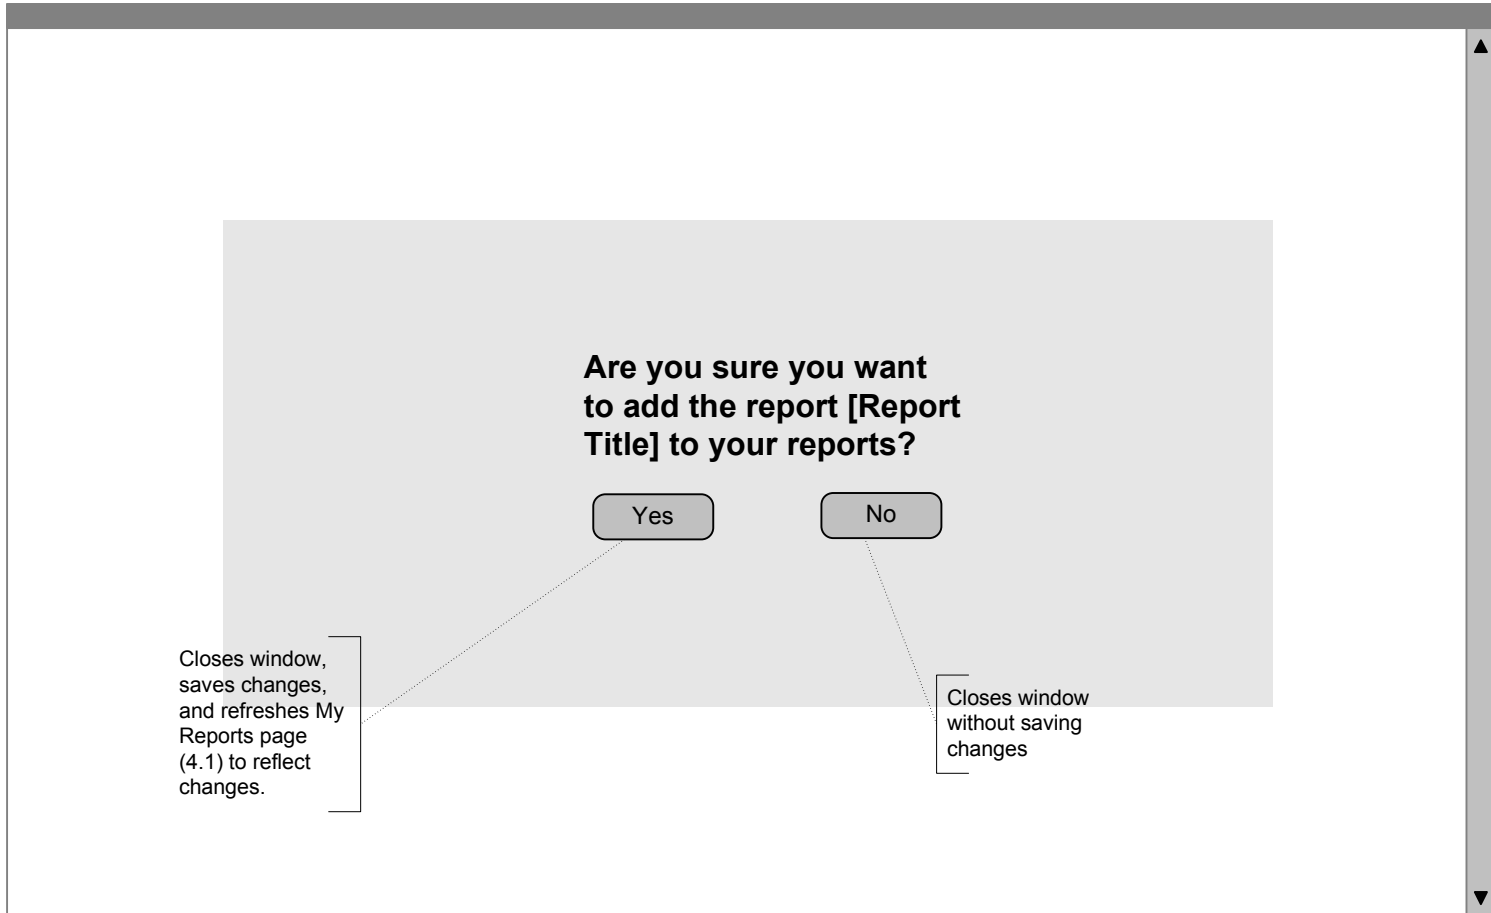

- Microsoft Excel spreadsheet (.XLS)
- Comma-delimited text (.CSV)
- Adobe Acrobat file (.PDF)
- XML

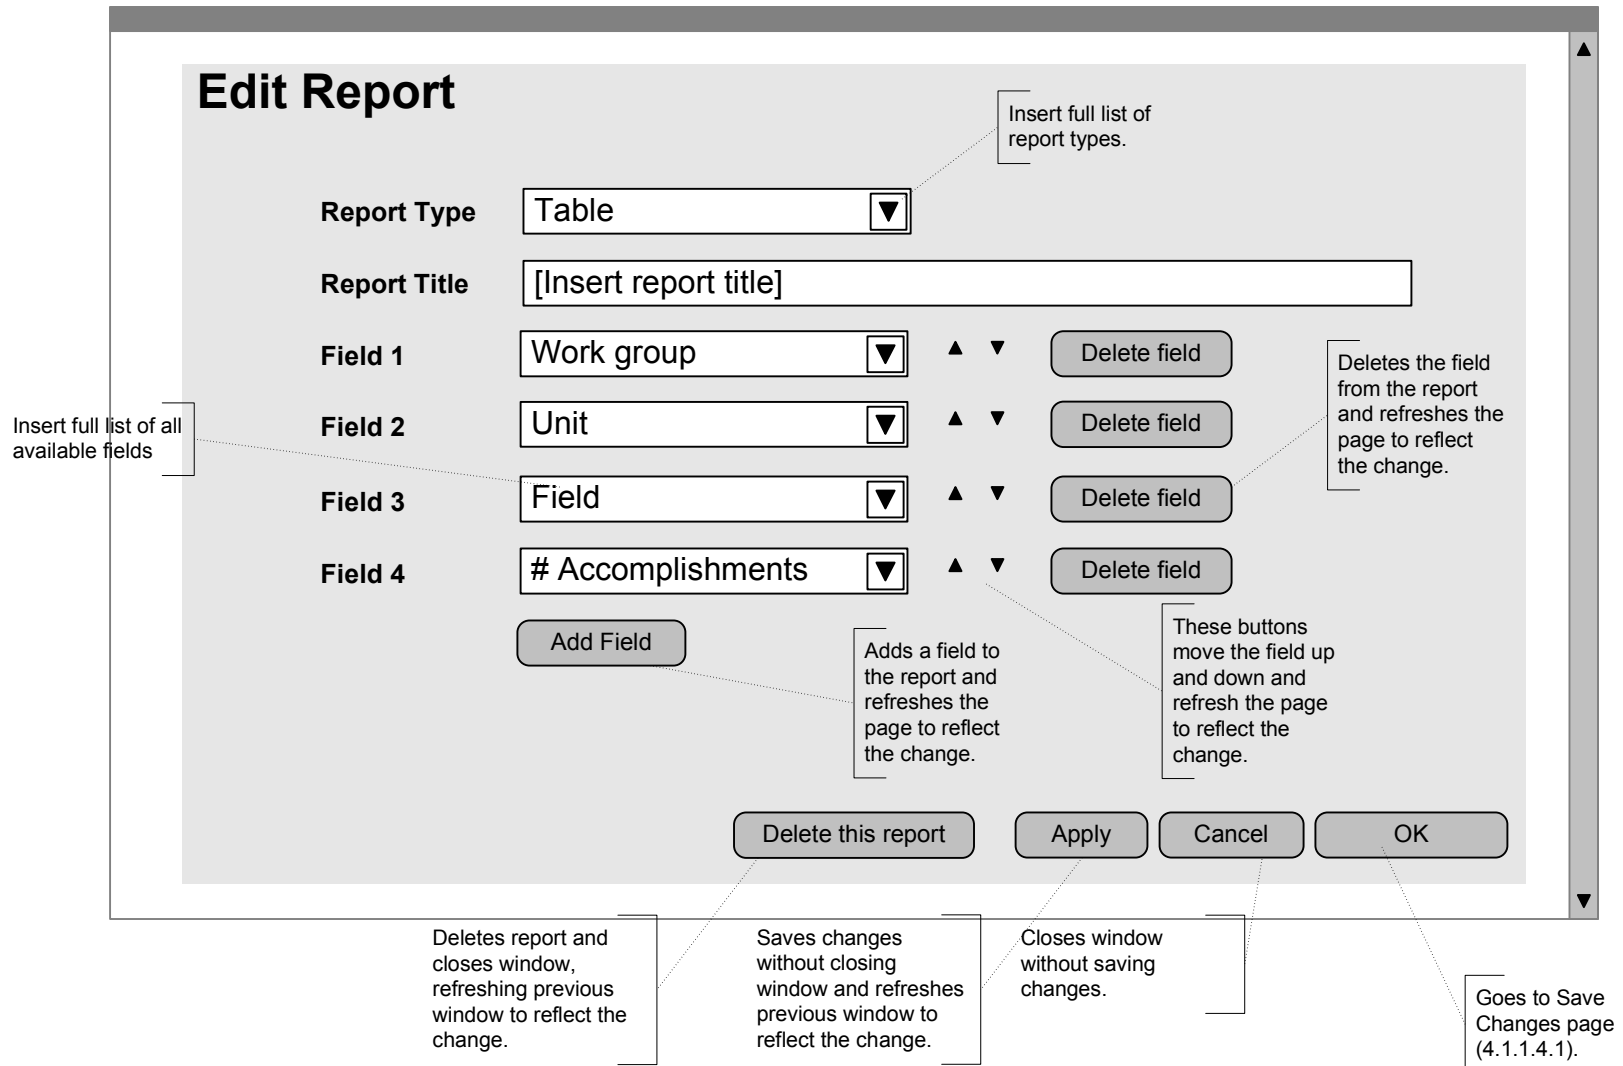

Close window.

Go to Edit Message page (6) and attach report to email.

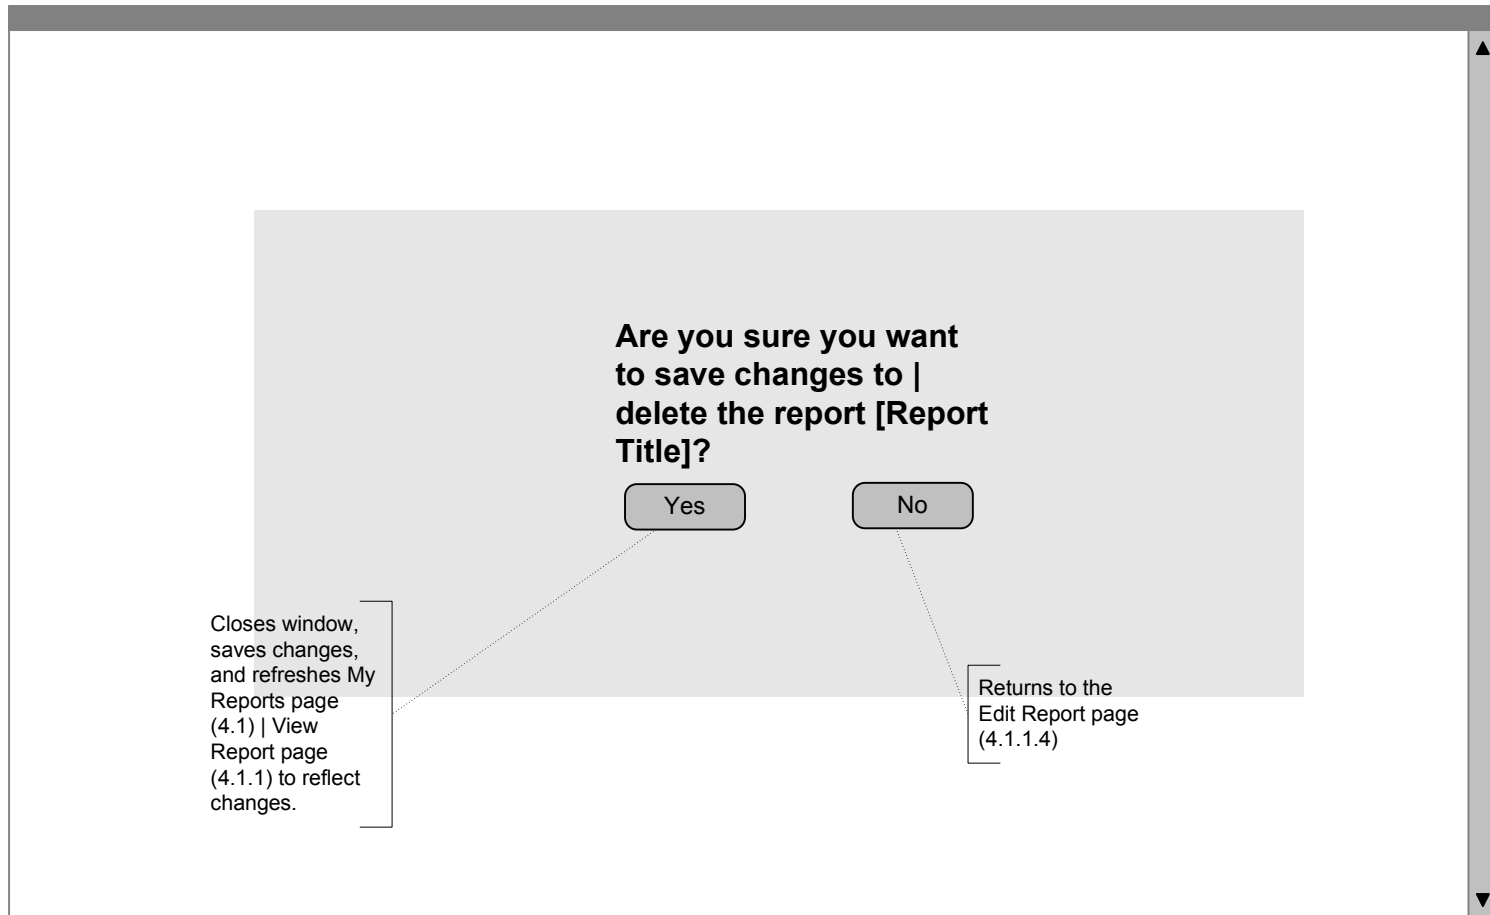

The dialog box is contained within a larger window frame with a vertical scrollbar on the right side.

4.1.1.4.1: Save Changes

Create Report

Report Type: Table

Report Title: [Insert report title]

Field 1: Work group

Field 2: Unit

Field 3: Field

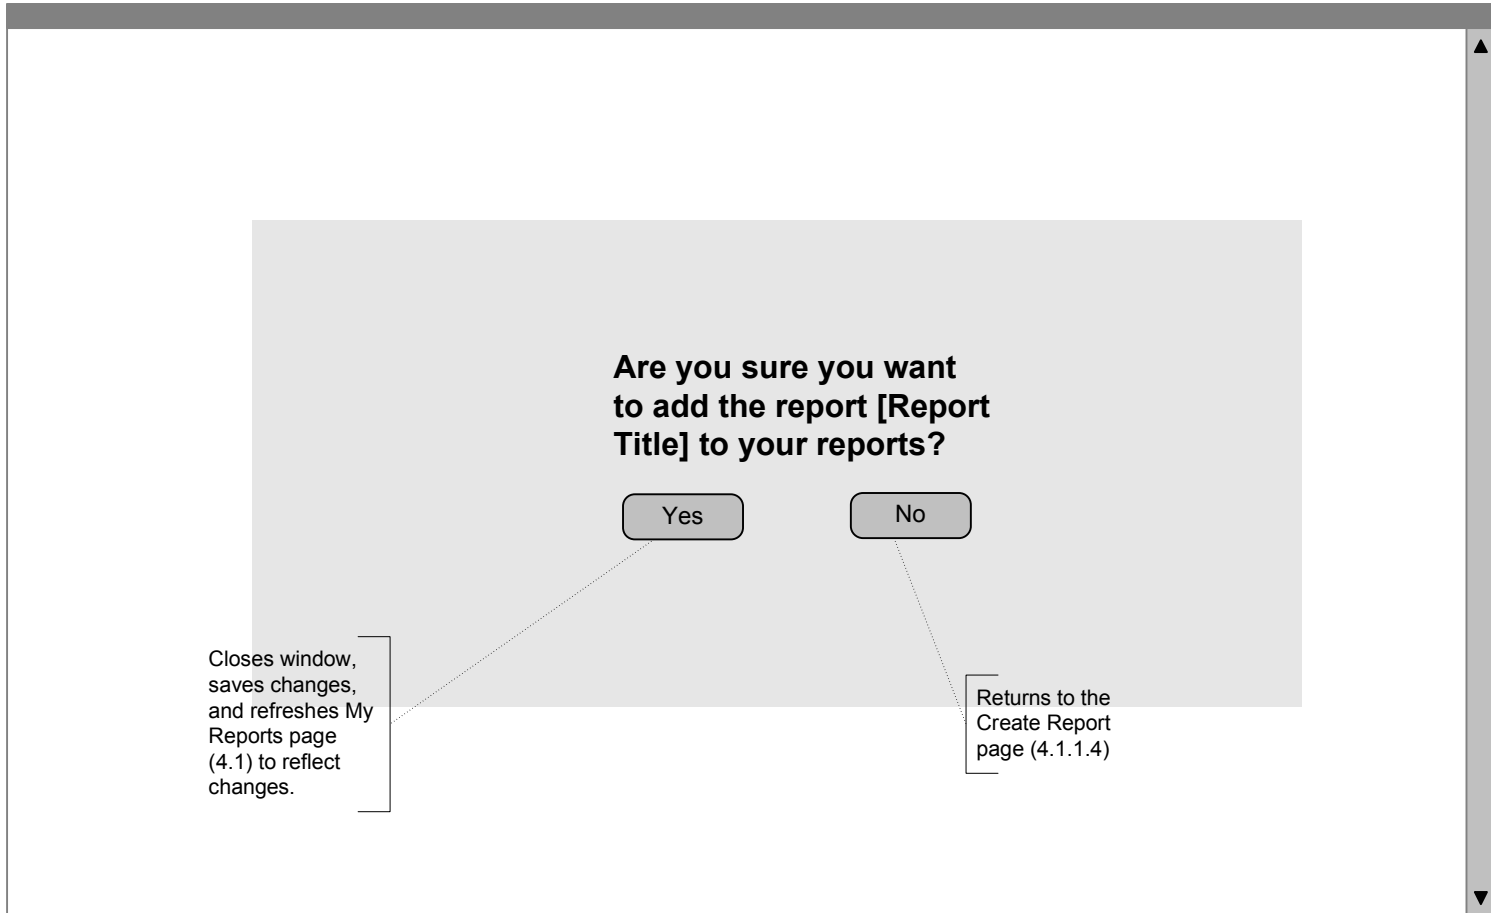

Field 4: # Accomplishments

Buttons: Add Field, Delete field, Cancel, Save

Annotations:

- Insert full list of report types. (points to Report Type dropdown)
- Insert full list of all available fields (points to Field dropdowns)
- Deletes the field from the report and refreshes the page to reflect the change. (points to Delete field buttons)
- These buttons move the field up and down and refresh the page to reflect the change. (points to up/down arrows)
- Adds a field to the report and refreshes the page to reflect the change. (points to Add Field button)
- Close window. (points to Cancel button)
- Go to Save Report page (4.1.2.1). (points to Save button)

4.1.2.1: Save Report

Closes window, saves changes, and refreshes My Reports page (4.1) to reflect changes.

Returns to the Create Report page (4.1.1.4)

5.2.1: View Feedback

The wireframe shows a browser window with a navigation bar at the top containing 'Back', 'Forward', 'Stop', 'Refresh', and 'Home'. Below the browser is a header area with a 'Faculty Accomplishments Logo' on the left and navigation buttons for 'My Profile', 'Reports', 'Admin' (highlighted in red), 'Home', 'Search', 'Profiles', and 'Help'. A 'Web Site Admin' button is located on the left side of the main content area. The main content area features a table of messages with columns for 'User', 'LUG', and 'Message'. Each message row includes a 'Reply' button. Two callout boxes provide instructions: one points to the 'Reply' button with the text 'List messages that have not been answered.', and another points to the 'Reply' button with the text 'Open Respond page (5.2.1.1) in new window.'
